MADE
SHOES
FOR MEN

W. L. Douglas \$3.50 shoes have a world-wide reputation. For over 29 years they have been sold in every country on the globe, and have continually proven their excellent style, easy fitting and superior wearing qualities.

Millions of people have come to know by actual experience that they represent greater intrinsic value than any other shoe on the market. W. L. Douglas guarantees their value by stamping his name and the price on the bottom.

The purchaser of W. L. Douglas \$3.50 shoes

knows in advance that such shoes are exactly as represented. They are made of the best selected materials by contented and well paid workmen, who take pride in their work and are glad to make the shoes just as good as they know how to make them.

In addition to the infinite care which attends every detail of the making, there is a system of inspection which makes it impossible for imperfect shoes to get out of the factory. If you really want the very best shoes obtainable—select W. L. Douglas \$3.50 shoes the next time you buy.

Your Superintendent feels that in the year just passed we have much to feel satisfied with in our school work. Never in all my experience as Superintendent has the work as a whole been as satisfactory as in the past year. I am well aware that one or two mistakes have been made in the selection of teachers, yet upon the whole we have been very fortunate in securing good and experienced teachers for all our schools, and, with one or two exceptions, each term's work has shown a fair amount of improvement.

I am also very glad to note that the visiting of our schools by parents and friends is upon the increase. Now this is as it should be and I earnestly hope that the good work will go on until all will take an active interest in our school work and thereby lend encouragement to pupils, teachers and school officers to do their best.

No doubt you will note that our transportation bill is much smaller than in former years. This is due in part to the new school-house built in the Martin district. But we still have some cases where it has been thought advisable to furnish a small amount of transportation. In most cases as the pupils get older transportation may be stopped entirely. I am of the opinion that transportation should not be paid only where the distance and the age of the pupils actually demand it; and then should be discontinued as soon as the age of the pupils will warrant it.

Your school officers were in hopes that with our increased appropriation we would be able to get 30 weeks of school this year. But with the increase in teachers' wages and all the other items which go to make up the school expense account, we were obliged to shorten our winter terms 1 week, thereby giving us but 29 weeks for the year.

The great question which seems to be coming up for school officers to study and answer is this: Where are we to get teachers? Now, as most of us know, until within about 15 years, teaching was about the only occupation which was open to women, and up to that time school officers could make their own choice. To day the condition is quite different. There is hardly an occupation or profession which may not be open to women. And of all these, teaching offers the least attraction and the poorest pay. In consequence of this, it is a fact, which all school superintendents will bear testimony to, for the last few years the question has not been, "Where shall we find good teachers?" but, "Where shall we find any teachers? Now, I see no chance for any improvement in this line, but am of the opinion that each succeeding year will find it more difficult to secure good teachers for our country schools.

Now this fact appeals to me in this way. If we would expect to get our share of the best teachers, we must appropriate money sufficient to pay teachers as good wages as they can secure in other towns and also to give them as many weeks of school.

Otherwise the adjoining towns will get the pick of the teachers and we will be obliged to take what are not wanted by our neighbors, and our schools must suffer from such a course. Now then, the only remedy I can see, is, let each voter who has children to educate, see to it that money enough is appropriated for our schools to secure not less than 28 weeks of school. Some will say we can't afford to spend so much money for schools. I say we can't afford to spend any less money than we have in the year just passed. Now, again, I say, if we must curtail expense, let it be in anything else, but don't vote to cut down our school appropriation for it means much to us in the country towns.

Respectfully submitted,

G. W. RICHARDSON, *Superintendent.*

RECOMMENDATIONS OF S. S. COMMITTEE.

Having carefully considered the needs of the schools of Greenwood we would make the following recommendations for the coming year.

For support of common schools,	\$1,200 00
purchase and exchange of text-books,	100 00
repairs and appliances, in addition to unexpended balance,	75 00
Free High School tuition,	50 00

Would also recommend that an article be placed in the town warrant to see if the town will vote to authorize the school board to maintain a school in districts, Nos. 1, 3, 9, and 11, or otherwise.

Respectfully submitted,

L. H. PENLEY,

R. E. MORGAN,

J. H. RING,

Superintending School Committee.

The following table shows in a condensed form the school work: the 1st column gives the number of the district; 2d, the name of teacher; 3d, length of term, in weeks; 4th, number of scholars registered; 5th, average attendance; 6th, number of scholars not absent $\frac{1}{2}$ day; 7th, wages of teacher; 8th, number of visits by Superintendent; 9th, number of visits by citizens; 10th, cost of transportation.

DR. TRUE'S ELIXIR

As a reliable family tonic, in all complaints of the stomach, liver or bowels, especially constipation, Dr. True's Elixir stands without an equal; it is a pure vegetable compound with a wonderfully successful record since 1851.

Adults as well as **children** are troubled with **worms**. The symptoms are: Indigestion, with a variable appetite; foul tongue, offensive breath, hard and full belly, with occasional gripings and pains about the navel; eyes heavy and dull, itching of the nose, short, dry cough; grinding of the teeth, starting during sleep; slow fever, and often in children, convulsions and bed wetting.

A few doses of Dr. True's Elixir will expel the worms if there are any: if not it acts as a gentle laxative tonic, clearing the stomach and bowels of all waste matter, leaving these organs sweet and clean—it increases the appetite, causing pure life-giving blood to flow through the body, thus invigorating the whole system with rugged, robust health. If taken regularly it will prevent coughs, colds, fevers and worms.

Sold by druggists, 35c, 50c, \$1.00. Write for booklet, "Children and Their Diseases."
